

Bosch Rear Windshield Wiper Program

Bosch Rear & DirectConnect™ rear coverage is engineered and designed to application specific wiping systems, making installation easy.

- Integrated rear quick clip connections for fast and hassle-free installation, saving installer time and effort.
- Quality rubber for smooth and quiet operation and a clean consistent wipe in any weather condition.
- Blade design that delivers the same look and feel as original equipment.

Bosch Rear OE Style & DirectConnect™ rear coverage fits the most popular wiper arm types:
